## **Imagin Medical Attending American Urological Association Annual Meeting**

*Imagin Medical is the developer of the ultrasensitive i/Blue Imaging System that will establish a new standard of care for urologists in detecting bladder cancer through endoscopes.*

---

**Vancouver, B.C. and Boston, MA**, May 5, 2016 – Imagin Medical (CSE: IME) (OTC PINK: IMEXF) (the “Company”) announced that President and CEO, Jim Hutchens, will be attending the [2016 AUA Annual Meeting](#) held in San Diego, CA, May 6-10.

Mr. Hutchens will be meeting with medical and technical specialists, including Dr. Ralph deVere White, Chairman of Imagin’s Scientific Medical Advisory Board and a speaker at the conference, and other key opinion leaders, as well as companies with potential to partner with Imagin. He will also be available during the conference for one-on-one meetings. Conference participants who are interested in meeting with Mr. Hutchens may contact him via the Company website.

### **About [2016 American Urological Annual Meeting](#)**

Urology professionals from around the world will come together in San Diego, CA for the 2016 AUA Annual Meeting. Now in its 111th year, the AUA Annual Meeting is the largest gathering of urologists in the world, providing unparalleled access to groundbreaking research, new guidelines and the latest advances in urologic medicine to positively impact their practices.

AUA has stood at the forefront in developing innovative, evidence-based quality education for urologists and urologic health care professionals worldwide. Through the Annual Meeting—and other year-round educational offerings—the AUA sets the highest standards for urologic education worldwide.

### **About Imagin Medical**

*Imagin Medical is developing imaging solutions for the early detection of cancer through the use of endoscopes. The Company believes it will radically improve the way physicians detect cancer. Imagin’s initial target market is bladder cancer, a major cancer worldwide, the sixth most prevalent in the U.S., and the most costly cancer to treat due to a greater than 50% recurrence rate. Developed at the Lawrence*

Livermore National Laboratory, this advanced, ultrasensitive imaging technology is based upon improved optical designs and advanced light sensors. Learn more at [www.imaginmedical.com](http://www.imaginmedical.com).

**ON BEHALF OF THE BOARD:**

*Jim Hutchens,*

President & CEO
