Imagin Medical Now Trading on the Frankfurt and Stuttgart Stock Exchanges

Imagin Medical is the developer of the ultrasensitive i/Blue Imaging System that will establish a new standard of care for urologists in detecting bladder cancer through endoscopes.

Vancouver, B.C. and Boston, MA, May 10, 2016 – Imagin Medical (CSE: IME) (OTC PINK: IMEXF) (the “Company”) is pleased to announce that its common shares now trade on the Frankfurt & Stuttgart Stock Exchanges under the symbol “DPD2”. European investors can now find quotes for the company on www.frankfurtstockexchange.de/

The Frankfurt Stock Exchange (the “Frankfurt Exchange”) is the world’s 10th largest stock exchange by market capitalization and the largest of Germany’s seven stock exchanges. The Stuttgart Stock Exchange is the second largest in Germany, handling approximately 40% of all securities trades in the country.

By facilitating advanced electronic trading, settlement and information systems, the Frankfurt Exchange is able to meet the growing requirements of cross-border trading. In addition to specialist trading at the Frankfurt Exchange, its fully electronic trading system, XETRA, is one of the leading electronic trading systems in the world. Over 200 trading participants from 16 European countries, Hong Kong and the United Arab Emirates are connected via XETRA servers in Frankfurt.

“Our listing on the two leading stock exchanges in Germany, Frankfurt & Stuttgart, will help build our exposure in Europe, and we expect the XETRA electronic trading platform to increase our trading liquidity in all of the major European financial hubs,” said Jim Hutchens, Imagin Medical’s President & CEO. “We are excited to spread the word about our technology with our listing on these two major German stock exchanges and look forward to growing our shareholder base worldwide.”

About Imagin Medical

Imagin Medical is developing imaging solutions for the early detection of cancer through the use of endoscopes. The Company believes it will radically improve the way physicians detect cancer. Imagin’s initial target market is bladder cancer, a major cancer worldwide, the sixth most prevalent in the U.S., and the most costly cancer to treat due to a greater than 50% recurrence rate. Developed at the

Lawrence Livermore National Laboratory, this advanced, ultrasensitive imaging technology is based upon improved optical designs and advanced light sensors. Learn more at www.imaginmedical.com.
