Roger J. Buckley, M.D., Joins Imagin Medical's Scientific Board of Advisors

Imagin Medical is the developer of the ultrasensitive i/Blue Imaging System that will establish a new standard of care for urologists in detecting bladder cancer through endoscopes.

Vancouver, B.C. and Boston, MA, November 10, 2016 – Imagin Medical (CSE: IME) (OTC PINK: IMEXF) (Frankfurt/Stuttgart Stock Exchanges: DPD2) (the “Company”) announced today that Dr. Roger J. Buckley, has joined Imagin’s Scientific Board of Advisors.

Dr. Buckley is the Division Head of Urology at North York General Hospital in Toronto, and is considered a top urologist in Canada. He received his M.D. from the University of Toronto medical school where he also completed his urological Residency and Fellowship. Dr. Buckley has worked full-time at North York General Hospital (NYGH) since 1985 where he has been Chief of Urology since 2002. North York General is a large community hospital in Toronto with teaching affiliations to the University of Toronto. He has been vice president and president of the Medical Staff Association at NYGH and a member of the Board of Governors.

Dr. Buckley conceptualized and opened the Gale and Graham Wright Prostate Center at NYGH in 2007, the first prostate centre in the province to offer timely diagnosis, information, expertise and resources for prostate cancer in a community hospital setting. He also developed and has chaired the International Bladder Cancer Group (IBCG) from 2006-2016, a consortium of American, Canadian and European Union countries whose mission is to improve the diagnosis, prevention, and treatment of bladder cancer through the application of biologic markers. He is currently vice president of the IBCG, and as a member has co-authored numerous peer-reviewed articles on bladder cancer. He has an ongoing interest in bladder cancer and prostate research and education.

“We are excited to have Dr. Buckley join our Scientific Advisory Board. His current interests and activities within the area of bladder cancer and its treatment complement the expertise of our other Board members. His involvement and relationships in the EU will be an asset to Imagin as we move forward,” said Jim Hutchens, Imagin President and CEO.

About Imagin Medical

Imagin Medical is developing imaging solutions for the early detection of cancer through the use of endoscopes. The Company believes it will radically improve the way physicians detect cancer. Imagin's initial target market is bladder cancer, a major cancer worldwide, the sixth most prevalent in the U.S., and the most costly cancer to treat due to a greater than 50% recurrence rate. Developed at the Lawrence Livermore National Laboratory, this advanced, ultrasensitive imaging technology is based upon improved optical designs and advanced light sensors.
